Motions

That a full report be done on the road from Green Lane to Louisa bridge as a vital commuter artery west Leixlip. That particular attention is paid to accessibility (wheelchairs/prams) overgrowth on path, public lighting deficiencies, and the potential of the provision of a cycle lane linking to existing cycle lanes on each end. We explore funding for this with the National Transportation Authority and involve both the community and Dublin Bus from a public consultation point of view.

5. Councillor Larkin

In view of the difficulty finding an acceptable terminus and turning circle in Moyglare Hall, that we ask the VEC to initiate design of the proposed bus provision on their campus as a matter of urgency.
