Supplementary Agenda

Roads, Transport and Public Safety

Motion

1. Councillor T. Byrne

That the roads area engineer looks at the Glen Easton Road with the view to making it safe for people to cross at the Glen Easton shopping area and at Castletown as this is a very busy stretch of road with over 1000 units along it . This has been on Leixlip Town Council's agenda for the last number of years.

Question

2. Councillor T. Byrne

Can the area engineer do some improvement works in the River Forest estate? This is the largest estate in North Kildare with approximately 650 housing units, a shopping centre, public transport, a secondary school with 700 students attending with a large volume of traffic, the public library, a youth and community centre and 2 doctors surgeries. There was a plan drawn up to upgrade the entrance, what became of it? The residents do a great amount of work to enhance their estate and any assistance given would be well received and would benefit the whole community.

Motion

3. Councillor T. Byrne

That the council install a lifebuoy at the new bridge at Young's Cross, as a matter of urgency, as people are jumping into the river to swim.
