We are pleased to present our Corporate Plan for the period 2019 to 2024. Adopted by the Elected Members at their meeting on the 25th November 2019; our Plan guides our strategic actions during the lifetime of this Council. This Plan is based on current resources and realistic expectations regarding future resource and operating environments. The Council welcomes adoption of the Plan as a commitment by all to our shared vision to make Kildare a leading inclusive and sustainable county.

Kildare County Council actively continues to implement reforms set out in the Action Programme for Effective Local Government, Putting People First. Over the last five years, we have shown our capacity to innovate and maintain services through change by embedding Municipal District structures, successfully growing the Public Participation Network (PPN), Local Community Development Committee (LCDC), Local Enterprise Office (LEO) and delivering services in a challenging financial and human resource environment. In this regard it is important to recognise the efforts of our Elected Members, our staff, and our community and agency partners.

However certain challenges that were already apparent in 2015, have grown in profile, urgency and scale. Census figures show that Kildare is one of the fastest growing and youngest population centres in the country; with the highest proportion of people aged 0-24 in the state at almost 37%. Population growth combined with proximity to Dublin is driving housing costs and demand for housing, and, inevitably many of our citizens are struggling to meet their housing needs.

Our Plan commits us to continuing our work with all partners to strive to meet Kildare’s housing needs while supporting social inclusion, equality and quality of life in new communities that have grown in recent years.

A strong infrastructure platform including a greater range of sustainable transport options, will serve to sustain growth in our County’s businesses and attract new employment. Equally, increased local employment and more sustainable transport options can mitigate the environmental and economic challenges presented by almost 40% of our workforce commuting out of Kildare.1 2

2 Kildare 2016 Census Profile

Kildare 2016 Census Profile
In 2020, in consultation with key stakeholders we will develop and begin implementing a wide-ranging economic strategy. We will continue through the Local Enterprise Office and in partnership with enterprise agencies, to nurture a pro-business environment supporting enterprise and promoting Kildare nationally and globally, as a location of choice for business, innovation and investment. Creating employment locally delivers economic, social and environmental benefits by reducing the effects of commuting and renewing our towns and villages. In this regard opportunities such as our development of a Mid-East Regional Innovation Think Space (MERITS) will provide innovation space for entrepreneurs to base themselves in Kildare. In addition, the newly created Strategic Development and Public Realm Projects team will drive delivery of strategic projects across our County that aim to revitalise towns and villages and sustain the local economy and rural hinterlands.

We will also focus on leveraging growth opportunities in the agri-food sector and in the equine sector. On the tourism front we will renew efforts to leverage economic benefits from our location as the first stop on Ireland’s Ancient East, on Dublin’s Doorstep, including the development of greenways and blueways in the County.

Underpinning everything we do however is the urgent need to meet the challenge of climate change. This Council has a key role to play, as host of the Eastern & Midlands Climate Action Regional Office. We are the lead for coordinating the work of 17 local authorities in preparing adaptation strategies. Climate Resilient Kildare, our Climate Change Adaptation Strategy, outlines financial and environmental imperatives in mainstreaming climate action into Council policies, buildings, infrastructure and operations, to tackle climate change.

However, we will not only look to our own internal activities but will support climate change action and environmental protection through our planning and policies and by enhancing organisational and community awareness, supports, incentives, research and facilities that sustain a better future for our County.

Finally, where needed, we will continue our robust enforcement, licensing, certification and regulation in the area of environmental protection, planning, building control fire safety and public health in order to protect the built and natural environment. To deliver this Plan we will continue to support our Elected Members in exercising local democracy. We will also continue to improve service delivery, engagement and communications by maximising the effectiveness of our people, budgets, operations and ICT resources.

Our Corporate Plan comprises a broad range of performance goals that describe how we propose to make our vision a reality and how we will measure our progress.

We are your Council working with you and on your behalf.

Our Elected Members and staff are committed to delivering our Plan in collaboration with the many statutory, voluntary and community groups with whom the Council works. We share a common interest in working together towards an inclusive and sustainable Kildare, for the present and future generations of our great and growing County.

Kildare is located in Leinster and is part of the Mid East Region. Our neighbouring counties are; Dublin, Carlow, Laois, Meath, Offaly and Wicklow. Kildare acts as a major transport hub as the M4, M7 and M9 run through it, as well as the main national rail-lines. Kildare also has over 2,500km of roads. Kildare is one of the fastest growing counties in Ireland.

---

**Councillor Suzanne Doyle**
Cathaoirleach

**Mr Peter Carey**
Chief Executive
Mission Statement

Kildare County Council
Shaping a sustainable future while improving the quality of life of all citizens. Delivering enabling infrastructure and efficient accessible services and pursuing our vision through collaboration, innovation, inclusion and community engagement.

Our Vision

Kildare—Living; growing; leading
Working together towards an inclusive and sustainable County.

Underpinning everything we do is the urgent need to meet the challenge of climate change. This Council has a key role to play; as host of the Eastern & Midlands Climate Action Regional Office. We are the lead for coordinating the work of 17 local authorities in preparing adaptation strategies.
Executive Structure
The Management Team, consisting of the Chief Executive, Head of Finance and five Directors of Service, carries out the executive role of the Council. The Council’s staff operate under the direction of the Chief Executive and the Management Team.

Full Council
Kildare County Council has 40 Elected Members which make up the Council. It meets on the last Monday of every month in the Council Chamber, Áras Chill Dara, Naas. A new Cathaoirleach is elected yearly at the annual meeting. Elected Members powers are described as reserved functions. The Local Government Reform Act 2014 sets out the functions of the Elected Members. In addition to a role in development and approval of policies, the Elected Members represent the views of the citizens who elected them, by making representations to the Council executive for response and action.

Over 350 statutory meetings since 2015
Almost 19,000 representations since June 2015

Municipal Districts (MD)
Kildare County Council has 40 elected members, and this is broken down into five municipal districts as follows:

<table>
<thead>
<tr>
<th>District</th>
<th>Members</th>
</tr>
</thead>
<tbody>
<tr>
<td>Athy</td>
<td>5</td>
</tr>
<tr>
<td>Celbridge-Leixlip</td>
<td>7</td>
</tr>
<tr>
<td>Clane – Maynooth</td>
<td>10</td>
</tr>
<tr>
<td>Kildare-Newbridge</td>
<td>11</td>
</tr>
<tr>
<td>Naas</td>
<td>7</td>
</tr>
</tbody>
</table>

Each Municipal District elects a Cathaoirleach every year and meets monthly. The Local Government Reform Act 2014 has conferred greater autonomy and decision-making powers to Elected Members at district level.

Strategic Policy Committee’s (SPC)
The Elected Members have a responsibility for considering and making policy; this process is facilitated through the SPC’s. The membership of SPC’s is made up of Elected Members and representatives of the social partners and sectoral interests. Each SPC is chaired by an Elected Member and is supported by a Director of Service. Kildare County Council currently has five Strategic Policy Committees, however following local elections, it is necessary for each local authority to establish new Strategic Policy Committees for the term 2019-2024. The addition of a further SPC, Climate Action is proposed; therefore, the SPCs for the period 2019-24 would become as outlined below if approved by the Full Council:

- Climate Action
- Economic Development, Enterprise and Planning
- Transportation, Safety and Emergency Services
- Environmental and Water Services
- Housing
- Local Community and Cultural

Corporate Policy Group (CPG)
The CPG acts as a link between the SPCs and Full Council and provides a forum where policy positions affecting the whole council can be agreed for submission to Full Council. The work of the strategic policy committees is co-ordinated through the Corporate Policy Group with Membership comprising the Cathaoirleach of the County Council, Chairperson of each SPC, plus a member from any Municipal District which does not have representation on the CPG. The Corporate Policy Group provides guidance and advice to the Full Council on policy matters, where necessary.
Local Community Development Committee (LCDC)
The purpose of the LCDC is to drive positive development of our community and integrate key stakeholders, whilst ensuring effectiveness, consistency, co-ordination and avoidance of duplication between the various elements of local authority activities in the community. In this regard the LCDC has oversight and responsibility for local development and community related funding in the County.

The LCDC sets out its objectives and goals in a 6-year plan called the Local Economic and Community Plan (LECP). The LECP is considered by the Municipal District Elected Members and approved by the Full Council and while it informs a range of planning policies in the County Development Plan, it is not a spatial plan. The LECP must be consistent with regional spatial and economic strategies.

The community element of the plan is prepared by the LCDC, with the economic element prepared by the Strategic Policy Committee for Economic Development, Enterprise and Planning. Both elements are prepared concurrently.

The membership of the LCDC includes:
- Elected Members of the local authority,
- Local authority staff,
- Representatives of public bodies which provide services in the area,
- Representatives of local community interests,
- Local community representatives from the PPN; and
- Representatives of publicly funded or supported local development bodies.

Established in 2014, Kildare’s 19-person membership includes nine statutory and ten non-statutory members who meet bi-monthly.

Local Enterprise Office (LEO)
The Local Enterprise Office a one stop shop for business support within Kildare County Council. There are 31 LEO’s across the country - 1 in each Council Area. The LEO offers expertise, know-how and financial support to businesses whether they are starting out or expanding a business. Customers range from people interested in starting up a new business or those already in business. The LEO helps to increase the job potential of new and existing micro and small businesses and to increase the number of innovative businesses with potential to export. Operationally the LEO is also a key driver behind many of the actions of the LECP. More information is here.

Public Participation Network (PPN)
Our democracy is made stronger by allowing diverse views and interests to be considered in the decision-making processes of local government. PPNs give citizens a greater say in local government decisions which affect their own communities. PPNs exist in each county to facilitate public consultation and public participation in policy and decision making.

The PPN provides the structure to enable the two-way flow of information between the Council and Community and Voluntary, Social Inclusion and Environmental groups in County Kildare. The PPN facilitates this by electing PPN representatives to sit on various committees within Kildare County Council. There are almost 950 groups registered with the Kildare PPN.

Audit Committee
The Audit Committee is part of the governance framework of the Council and has an independent role in reviewing financial reporting, internal control and risk management. The Committee oversees the work of Internal Audit and approves the Internal Audit annual plan and charter. The Committee reports annually to Council on their findings regarding the audited annual financial statement and auditor’s report. The Committee also submits an annual report to Council. The Committee’s role is advisory.

Joint Policing Committee (JPC)
Joint Policing Committees have been established to provide a forum where the Local Authority, senior Garda Officers responsible for the policing of that area, the Oireachtas members and community interests, can consult, discuss and make recommendations on matters affecting policing of that area. This is set out in Kildare JPCs 5-year plan. To further support and guide the safety of our communities the JPC has formed a sub-committee to assess and recommend Community CCTV applications.

County Kildare JPC Committee is made up of 33 members and meets 4 times per year:
- Garda Officers nominated by the Garda Commissioner 2
- Local Authority Elected Members 15
- Members of the Oireachtas for the Area 7
- Local Authority Officials 2
- Community Representatives 7
Kildare County Council has 40 Elected Members which make up the Full Council. It meets on the last Monday of every month in the Council Chamber, Áras Chill Dara, Naas.

Local Government in Context

Note: The Draft SPC Scheme above is proposed. Public consultation is ongoing.
Naas - Municipal District

Main Services Areas by Directorate

ROADS, TRANSPORT AND PUBLIC SAFETY
- Roads Design
- Construction and Maintenance for Non-National Roads
- National Roads Office
- Road Safety
- Traffic Management
- Building Control
- Public Lighting
- Car Parking
- Fire Services
- Civil Defence
- Health and Safety
- Major Emergency Management

HOUSING AND CORPORATE SERVICES
- Social Housing - Provision, Assessment, Allocation
- Voluntary Housing
- Housing Support Services
- Grants and Loans
- Architectural Services
- Traveller Accommodation
- Homeless Service
- Tenant Liaison Services & Estate Management
- Housing Maintenance
- Housing Strategy & Capital/ Acquisitions
- Elected Members Services
- Service to Citizens/Customer Care
- Franchise and Elections
- Access to Information (Data Protection FOI)
- Facilities Management
- Communications and Corporate Publications

PLANNING & STRATEGIC DEVELOPMENT
- Forward Planning Development Control
- Planning Enforcement
- Heritage and Conservation
- Strategic Projects and Public Realm

ENVIRONMENTAL SERVICES, WATER AND CLIMATE CHANGE
- Delivery of Water Services as agents of Irish Water
- Flood Alleviation
- Rural Water Programme
- River Basin Management
- Waste Management and Pollution Control
- Special Project - Restoration of Kerdiffstown Site
- Environmental Awareness
- Enforcement
- Risk Management
- Climate Action
- Veterinary Services
- Burial Grounds

ECONOMIC COMMUNITY AND CULTURAL DEVELOPMENT
- Economic & Business Development Support
- Local Enterprise Office (LEO)
- Tourism Development & County Promotion
- Human Resources
- Library Services
- Community Development and Support
- Parks and Landscaping
- Sports and Community Centres
- Arts, Culture & Local History
- LCDC

FINANCE & INFORMATION TECHNOLOGY
- Financial Management and Reporting
- Debt Collection
- Motor Taxation

ACHIEVEMENTS

Roads and Transportation

Maintenance/Improvement Projects:
- Completion of N78 Improvement Scheme Phase 1, Athy.
- Funding secured and works commenced for Coughlanstown Slope Failure Remediation Project, Ballymore Eustace
- Celbridge Main Street Public Lighting upgrade

Active and ongoing projects include:
- Athy Distributor Road,
- Kildare Town Northern Link Street and South Green Area Access Improvement Scheme,
- Maynooth Eastern Relief Road (LIHAF) and Maynooth Outer Orbital Route,
- Kildangan Railway Bridge Footpath Scheme

New Roads constructed include:
- Devoy Link Road, Naas,
- Section of Southern Orbital Relief Road, Newbridge
- M7 Osberstown Interchange and R407 Sallins Bypass
- Inner Relief Street, Maynooth facilitating housing development

Sustainable transport progress:
- Road safety and cycle skills programme delivered to schools throughout the County.
- Maynooth Harbour Cycle Scheme and public realm improvements
- Phase 5 of Maynooth North South Corridor Pedestrian and Cycle Scheme completed
- Installation of bus shelters progressing in Collaboration with the National Transport Authority.

Library and Arts Services

- Delivery of an award-winning library in Athy involving restoration of a Dominican Church
- Delivered new technological innovations across the library service - including National Library Management System, Wifi, Self-Service kiosks and range of eServices
- Carried out a service review and increased Library Opening Hours across all locations
- Delivered Decade of Commemoration Strategy, Civic Memorial Policy, 2016 Programme of Creative Ireland Strategy for Kildare

Fire Services & Major Emergency Management

- Energy audits have been undertaken in all Kildare fire stations
- Kildare Fire Service delivered the Schools Programme, an age appropriate fire safety programme, to all of the primary school third class pupils in the county
- The Council has strengthened Major Emergency Management capability in updating the Major Emergency Plan and approving a Severe Weather Plan used operationally in our responses to Storms Ophelia and Emma

Housing services

- In excess of 3,900 housing needs assessments completed
- Establishment of a Traveller Accommodation Unit with delivery of 93% of the targets contained within the Traveller Accommodation Programme up to 2019.
- Establishment of a Homelessness Support Unit and a homeless outreach and tenancy sustainability team.
- Development of a Cold Weather Initiative in partnership with The Peter McVerry Trust.
- Development of a family hub at the Dominican Site, Athy in partnership with The Peter McVerry Trust.
- Establishment of a Private Rented Inspection Unit
- Appointment of a Vacant Homes Officer.
- Choice Based Lettings scheme rolled out to Kildare County Council Housing applicants.
- 66 Rebuilding Ireland Home Loans approved.

In excess of 3,000 additional homes delivered through public and private sector activity in the County.
Looking Back - Delivering our Corporate Plan 2015-2019

Planning Services
- Adoption of Kildare County Development Plan 2017-2023
- Kilcock Local Area Plan 2015-2021
- Celbridge Local Area Plan 2017-2023
- Clare Local Area Plan 2017-2023
- Leixlip Local Area Plan 2017-2023
- Monasterevin Local Area Plan 2016-2022
- Sallins Local Area Plan 2016-2022
- Athy Town Plan 2012 - 2018 Variations
- Adoption of County Kildare Heritage Plan 2019-2025
- Review of Quarries completed 2019
- Facilitation of regular pre-planning clinics

Environmental & Water Services
- Supported creation of 4 Sustainable Energy Communities
- Provision of grants and supports of over €1.4m to rural water programmes.
- 7 major cemetery extensions
- Part 8 under preparation for a third Civic Amenity facility for the County
- Significant progress on Kerdiffstown historic landfill remediation project with construction stage commencing by end 2019.
- Completed Waste Water Treatment Plants in the County at Osberstown and Kildare Town

Corporate Services
- Creation of a dedicated Elected Members Services Unit that has serviced over 300 meetings in the last five years
- Development of Customer Relationship Management System (CRM) and a dedicated Customer Services Team
- Supported the 2019 Local Elections, electoral boundary changes and significant growth in the Electoral Register
- Creation of an Access to Information Unit comprising a Data Protection Officer and FOI Officer
- Completion of a large number of energy audits and improvements in Council buildings including installation of solar panels at Aras Chill Dara and energy enhancements in Naas Swimming Pool and our libraries.

Community, Parks and Recreation Services
- Establishment of an Athy Water Based Sports Hub
- Launch of Kildare Age Friendly strategy in 2019 and establishment of Celbridge as an Age Friendly Town
- Delivery of Social Inclusion Community Activation Programme (SICAP) annually
- 17 active Twinning Groups throughout the County.
- Annual Play Day organised since 2015 with on average 3,000 children participating

Economic Development and Enterprise
- Awarded €1.9m under European Regional Development Fund (ERDF) to build a Mid-East Regional Innovation Think Space (MERITS) for entrepreneurs to base themselves in Kildare
- In 2018, Kildare LEO Launched Kildare Food Chain 50 food producers, suppliers and service companies which provides training mentoring and networking to Kildare’s food Chain
- In 2018 and 2019 Kildare LEO backed companies were the overall winner of the National Enterprise Awards (Pestle and Mortar, 2019 and Terra Ltd., 2018)
- Offers were made to 277 Businesses in connection with Shop Front Grants

Finance
- Annual Revenue Budgets 2015, 2016, 2017 2018, 2019
- Annual Capital Programme 2015-2019
- Annual Financial statements 2014-2018
- Appointment of Procurement Officer
- Upgrade from Head of Internal Audit to Head of Internal Audit and Corporate Governance.
- Launch of office 365 to all sections
- Pilot site for National E-Invoicing for Local Authorities
- Rates Revaluation of the County in 2017
Delivery of Naas - Newbridge M7 UPGRADE

185 EXTRA CAR PARKING SPACES for Naas and Kilcock - 7 Towns with Pay Parking

Maynooth-Westmeath Cycleway Opened
Construction and design progressing – Greater Dublin Area Cycle Network and Royal Canal Greenway

2,500 KM ROAD NETWORK
Delivery of Multi Annual Road Improvement and Restoration Programme for our 2,500km regional and local road network

PROTECTING OUR COMMUNITIES
from our 6 firestations in the County

1,600 Houses Allocated 2015 – June 2019

2,000 New tenancies with Housing Assistance Payments

3,000 ADDITIONAL HOMES
Delivered through Public and Private Sector Activity throughout the County

1,800 Grants comprising Housing Adaptation Grants, Housing Aid for Older People and Mobility Aid Grants

1,100 Pre-planning meetings

6,960 Planning applications processed since 2015

Almost 4,000 Housing units granted since 2017

€30 MILLION
Housing maintenance and repair

COVENANT OF MAYORS ADOPTED
Climate Resilient Kildare Adopted

130 + Schools in Green Flag Programme
Now over 40 Bottle Banks in the County

17 Local Authorities Climate Strategies
Co-ordinated through Kildare’s Regional Climate Office.

Looking Back - Delivering our Corporate Plan 2015-2019
+930 Community and Voluntary Groups in our Public Participation Network

111 Active registered Residents Associations

€2 million in 1,000 Community Grants Every year

Looking Back - Delivering our Corporate Plan 2015-2019
External Operating Environment & Critical Success Factors

Working at the heart of communities, the ever-changing environment in which we work is influenced by many factors critical to our success.

Political
Positioned as the second tier of government in Ireland, the Council is responsible at local level for implementation of policies arising from the priorities of Government. Project Ireland 2040 informs supporting plans such as housing through Rebuilding Ireland, climate and environmental protection in the National Climate Change Adaptation Framework, The National Planning Framework, transport policy through the Greater Dublin Area Transport Strategy and economic policy, including Enterprise 2025 and the Regional Enterprise Plan. Equally priorities in reform of local government reflected in Putting People First, Our Public Service 2020 and eGovernment Strategy 2017–2020 must be delivered. Our Public Service 2020 strongly informs our Plan, with its 18 key actions influencing all our activities.

At the time of the publication of this Plan it is apparent a general election is likely in the short term. The Council may need to re-visit this Plan to reflect changing priorities emerging from the next government. Also, at present Brexit remains a major uncertainty for the economic future of the state and the Council will continue to prepare for the likely impacts that arise, including “Getting Business Brexit Ready” activities through our Local Enterprise Office.

Economic
The improving economy has impacted development levels and housing costs, however with supply still behind population growth, this will continue to present major challenges. While the economy has gradually recovered, there are uncertainties from Brexit and international trade developments. To withstand future shocks there is a need to ensure Council finances and our ability to meet citizen’s needs are on a sustainable footing. In this regard our activities in attracting investment and supporting and growing local businesses can play an important role. Since 2014 local authorities are more active players in facilitating employment and supporting business.

Our economic base comprises 92% SMEs. We recognise that, as stakeholders in our County’s prosperity, supporting businesses through our Local Enterprise Office, Kildare Fáilte and the delivery of enabling infrastructure, in turn supports the Council’s funding and our capacity to deliver services to the entire community.

While Kildare has the second highest rate of Foreign Direct Investment nationally, the Council’s actions in economic policy can play a part in mitigating risks to our local economy. In this regard the Council in 2020 will develop a five-year Economic Strategy that supplements our LECP and identifies actions and targets in the area of Foreign Direct Investment FDI, SME supports, Equine Industry Tourism, Retail, Education, Green Economy, Agri-Food together with Public Realm and infrastructure projects to revitalise the local economies of our towns, villages and rural hinterlands.

Our strategy will ensure consultation and alignment with the Regional Spatial and Economic Strategy developed by the Eastern and Midland Regional Assembly. Realising opportunities from our strategy will strengthen the sustainability of funding to the Council and enable reinvestment in supporting infrastructure and services that enhance quality of life of all.

OUR PUBLIC SERVICE 2020: HEADLINE ACTIONS

DELIVERING FOR OUR PUBLIC
1. Accelerate digital delivery of services
2. Improve services for our customers
3. Make services more accessible to all
4. Significantly improve communications and engagement with the public
5. Drive efficiency and effectiveness

INNOVATING FOR OUR FUTURE
6. Promote a culture of innovation in the public service
7. Optimise the use of data
8. Build strategic planning capability
9. Strengthen whole-of-government collaboration
10. Embed programme and project management
11. Embed a culture of evidence and evaluation

DEVELOPING OUR PEOPLE AND ORGANISATIONS
12. Embed strategic human resource management in the public service
13. Mainstream strategic workforce planning in the public service
14. Continuous and responsive development
15. Strengthen performance management
16. Promote equality, diversity and inclusion
17. Increase employee engagement
18. Review public service culture and values
Legal, regulatory and oversight.
Implementation of national and EU legislation occurs at the level closest to the citizen through local authority activities. The Council acts as an agency responsible for monitoring and enforcement of EU and national laws especially in the environment, planning and building control areas.

In addition, the Council as an organisation is subject to a range of legislation that requires it to demonstrate compliance, governance and accountability in areas such as Data Protection, access to information, financial management and audit, performance reporting and procurement. In this regard the Council shall ensure it continues to access professional services and guidance of regulatory bodies to interpret, comply with and where necessary enforce relevant legislation.

Environment: Climate Change and sustainability
Experience of the last five years indicates that the frequency and severity of weather events will demand greater planning and responsiveness in the next five years. Our Climate Change Adaptation Strategy and its 120 key actions along with the Covenant of Mayors, and Climate Charter commit the Council to ensuring services can meet this growing challenge in a sustainable and climate friendly manner.

In addition to ensuring a resilient service to meet emergencies arising from climate change, the Corporate Plan also commits the Council to fundamentally revising its operations and acting to mitigate and adapt to climate change through a range of actions outlined in the supporting strategies of this Plan and in our Climate Change Adaptation Strategy and the Covenant of Mayors, for which a Sustainable Energy and Climate Action Plan (SECAP), will be developed.

Rising and changing demand from population growth also challenges a sustainable future for the county and will increasingly impact on the way the Council operates. Kildare is a growing county and as such pressures of traffic management, pollution, road maintenance and environmental enforcement will continue to grow and must be managed carefully. In the midst of these challenges, protecting, preserving and facilitating sustainable access to our built and natural heritage will be crucial for both environmental, economic and health benefits for current citizens and future generations.

Location - Greater Dublin Area - Challenges and Opportunities
Kildare’s proximity to Dublin remains a dominant factor that presents opportunities but also challenges. Located on Dublin’s doorstep, there are economic opportunities in positioning the county as an investment location with excellent national transport links, proximity to a large educated workforce and to Dublin Airport and Port, and hence to global export markets. Equally however there are risks that country’s major motorway network will merely facilitate non-stop through traffic on route to employment centres in Dublin.

As a county with the country’s major motorway network and with 40% of our workforce commuting through the county, there are significant challenges presented. These range from attendant environmental effects, pressure on our transport infrastructure, loss of spend in local towns and negative impacts on the quality of life of our citizens. In this context, strategic investment and employment opportunities along the motorway corridors of our County mitigate these negative impacts.

Kildare 2016 Census Profile.
The County at the last census has the youngest population in the state. This affects all services particularly social and community infrastructure such as housing, open spaces, play facilities, age-specific social inclusion projects, community buildings and libraries.

At the other end of the spectrum the population over 65 is up by 32% in 5 years and now makes up 10% of our population. A focus upon age friendly projects and accessibility in towns and villages must address this so all citizens can safely participate in normal economic and social activities.

While the housing vacancy rate reduced by over 25% in the period 2011-16, a changing and growing population places pressure upon the volume and type of housing options we must deliver. It is apparent that it is not only our young and growing population that will place demands on housing solutions. The County’s socio-economic profile is a major factor, that will continue to place massive pressures on the Council’s need to build and maintain social housing, and continue to offer the services needed to our tenants.

The concentration of employment and development in core centres close to sustainable transport can facilitate major investment and is a central planning policy. Our planning and economic policies need to leverage investment and transport opportunities that will enhance the quality of life of all our citizens and continue to make the county an attractive investment location. Our efforts over the next five years must focus on delivering the economic, social and environmental benefits of reducing the need to commute for work. Equally however, in the north eastern part of the county (where almost 75% of the County population live), there may remain inevitably higher levels of commuting, given proximity to Dublin. The Council will therefore work with national agencies to seek to deliver public transport and sustainable modes of transport. Proximity to Dublin also affects the cost of housing in the county and in turn the decisions people take about where to live. While there has been a traditional divide between the more densely populated north eastern part of the county and sparsely populated centre and south, this has started to change.

The increasing cost of housing in Dublin is resulting in population growth in the formerly less populated towns in our county where housing is relatively more affordable. It is imperative that the resulting pressure upon services from this population growth is responded to by the delivery of community infrastructure in these changing population centres.

Keeping the County moving safely and sustainably is of growing importance and investment by the Council and partner agencies to enhance access to public transport options and cross connections, as well as rural transport options, will be crucial to realise economic, social and environmental goals.

Population trends and service responses
County related analysis on the 2016 census, conducted in association with the All Ireland Research Observatory (AIRO) is available online. This data and its underlying trends inform our evidence-led strategic planning. Analysis of population trends suggests the county is likely to see further growth at both ends of the age spectrum. Growth has not yet been matched by essential services and our efforts must focus on closing this gap and in the interim managing increasing pressure on existing infrastructure and services.

The County at the last census has the youngest population in the state. This affects all services particularly social and community infrastructure such as housing, open spaces, play facilities, age-specific social inclusion projects, community buildings and libraries.

At the other end of the spectrum the population over 65 is up by 32% in 5 years and now makes up 10% of our population. A focus upon age friendly projects and accessibility in towns and villages must address this so all citizens can safely participate in normal economic and social activities.

While the housing vacancy rate reduced by over 25% in the period 2011-16, a changing and growing population places pressure upon the volume and type of housing options we must deliver. It is apparent that it is not only our young and growing population that will place demands on housing solutions. The County’s socio-economic profile is a major factor, that will continue to place massive pressures on the Council’s need to build and maintain social housing, and continue to offer the services needed to our tenants.

Social related tenancies up 18% (2011-2016)
Direct Social Housing 6% (Nat Avg 9.4%)
3rd highest no. of private rented households
4,000 in receipt of social rent support
Highest house costs outside Dublin & Wicklow

The Council will continue to strategically manage its assets in the form of managing vacancy rates, servicing zoned land to address the pressure upon housing in the County, and increase supply through initiatives such as LIHAF and delivering our Capital and Leasing Programme. The Council’s Housing Strategy 2017-2023 will be revisited in the lifetime of this Plan and will be reflected in updated supporting strategies in the Corporate Plan as required. The county’s population growth will require significantly increased housing development. It is imperative that in meeting this demand that standards are maintained.

External Operating Environment
The role of the Council will be vital in planning enforcement and regulating design and construction of new or altered buildings, to ensure they are compliant with fire safety, accessibility and proper planning and building control requirements. In this regard overseeing the continued use of the online National Building Control Management System by developers, and construction and design professionals is imperative.

Social Inclusion and evidence led investment
The Local Economic and Community Plan (LECP) includes a range of measures aimed at tackling disadvantage and social exclusion. Collaboration of state agencies and the voluntary sector with the Council, LCDC and the PPN is reflected in the supporting strategies and appendices in this Plan. Continued delivery of projects aimed at addressing exclusion in towns and more rural areas will be pursued through both through the Social Inclusion and Community Activation Programme (SiCAP), Kildare Rural Leader Projects and the Town and Village Renewal Scheme.

With over 10% of the population comprising non-Irish nationals we also need to continue our extensive and positive work in social integration and community building. The Council will during the lifetime of this Plan, develop a framework to meet our obligations under the Irish Human Rights and Equality Commission Act 2014.

While positive actions have already taken place relating to disability access, our Traveller and Roma Strategy, a completed assessment of human rights for Travellers, privacy rights and social inclusion, a formalised assessment of the equality and human rights issues relevant to our functions is needed.

Despite an overall increase of 19.4% in our population (2006-2016), research from the All Ireland Research Observatory (AIRO) relating to the 2016 census identified vulnerabilities to the future well-being of our citizens. In short it is apparent that certain social infrastructure and supports are behind population growth.

Using the data resources available, this Council through its executive and Elected Members, will continue to take an evidence-led approach in strongly advocating for projects and resources in its collaboration and dialogue with Government Departments and other state agencies.

Public expectations – Visibility, engagement and communications
Council services and roles have changed since the recession. While fewer customers have a direct service-relationship with the Council we still rely upon funding from local sources i.e. Local Property Tax– (LPT), rates, development contributions and other payments. A recurring issue in recent consultations has been the need for better and more frequent communication and consultation by the Council.

There was also found to be a lack of understanding of our services and role. The public are our stakeholders, however the relevance of the Council to people’s lives is less understood. In this regard it is important to deliver services but also build awareness of our services and their impact. This visibility, transparency and accountability can be supported by increasing community participation through the Public Participation Network, the growing role of Municipal Districts in service delivery and improved consultation methods.

Clearly, with a population of over 36% aged 0-24 we must meet the challenge of reaching and engaging with a younger group of citizens whose lives are shaped by the decisions we have taken and will take. The Council’s website will be re-developed during this Plan along with new online consultative platforms and a revised Communications Strategy. As part of the proposals to improve communications a dedicated Communications Unit is planned.

Human Resource Management (HRM)
Local authorities are at the forefront of the process of modernisation in the public service. Central to the delivery of the Corporate Plan and this challenging agenda is the need to attract, retain, train, upskill and utilise human resources effectively and flexibly. While the county has the 5th highest population in the state Kildare County Council has the 2nd lowest number of staff per head of population (262 people per staff member, compared with a national average of 177, based on the 2016 Census). In this regard implementation of the Performance Development and Management System (PMDS) and sectoral HR policy in the form of the Local Authority People Strategy is vital to maximise performance.

The Performance Development and Management System (PMDS) and the Management, Departmental and Personal Plans within this system assign the roles, actions and objectives to each staff member and this brings our Corporate Plan to life. PMDS will ensure staff understand their role in corporate objectives and that performance is continually monitored and discussed.

The Local Authority People Strategy focuses on the people implications of key organisational issues facing local authorities and sets out a roadmap for management of human resources, to support business goals and ensure a motivated and committed workforce equipped to provide optimum standards of service delivery.

The People Strategy will ensure that we:
- Attract, recruit and retain the people that we need
- Build capacity and competence to effectively deliver on our current and future services
- Create culture of continuous learning and development
- Support succession planning
- Continue to foster a culture of dignity, respect and fairness
- Enable and empower a motivated and committed workforce to provide a quality service

A key principle underpinning the People Strategy is to align it with the business needs of the Local Authority and align it with the Corporate Plan cycle over the next five years. This will facilitate a dynamic approach to accommodating emerging needs.
Our Internal Operating Environment and Critical Success Factors.

Information Technology and Change Management

Putting People First, the eGovernment Strategy, 2017-2020 and local factors such as the County’s youthful population and the high number of commuters in the County mean we must innovate to make it easier for people to interact with us. This demands greater use of social media, e-Payments, mobile apps and online consultaive platforms.

Over the lifetime of the Plan the Council will:

Customer Service - revise Customer Relationship Management (CRM) solutions to support self-service, e-payment and service responses

Communications - implement a web-based consultation solution and enhance communication related to planning, emergency and other services using multiple channels

GIS and Data Sharing- further explore use of GIS to identify challenges to services and plan services and infrastructure. Explore the potentials for strategic data sharing in accordance with the Data Sharing and Governance Act 2019

Data Protection- comply with data protection by ensuring privacy by design is built into systems and continuous to protect security of data and offer robust detection and preventative measures to combat cybercrime.

Robust Infrastructure - Continue to develop our IT wireless network which connect our forty-mile locationing, to enhance resilience and security and upgrade our connection to the Government network to ensure resilient and secure infrastructure to deploy cloud solutions. Deploy a new Storage Area Network (SAN) upgrade to provide on-premise solutions to storing council electronic data in a secure and resilient fashion and provide enhanced disaster recovery.

Democratic Mandate- support our Elected Members through the provision of IT equipment, upgrading technology in our Council Chamber, maintaining our Membersnet, developing systems to better manage representations.

In the area of customer service the implementation of standardised national descriptions for all services, currently ongoing as part of the National Service Catalogue, also has the potential to ensure consistency in the management of information on networks, websites, CRMs and financial management systems, in turn making customer service more efficient and access to information for self-service easier. This standardised approach will also facilitate the expansion of comparative national performance indicators to measure our customer service.

In this regard and in the context of the ongoing replacement/revision of our CRM, a specific suite of metrics will be developed to measure our customer service. The Council are also researching the potential use of Internal Service Level Agreements (SLAs) to set out and manage the respective customer service roles of each Department

Funding.

There are a range of factors specific to Kildare’s funding position that are likely to affect our capacity to deliver services. It is the case that funding from central government to this County is lagging behind the ever-growing needs.

79% of our €600m rates income comes from 14% of our properties, which creates a financial risk to the Council due to a reliance on a small number of large ratepayers. Analysis of the 2016 census data by AIBO has identified compelling challenges for our County. Kildare has a road network of over 2,500km to maintain, which is heavily used by over 40,000 people commuting from Kildare to work in Dublin. Kildare’s rates income per head of population is 11th in the national table.

While Kildare sustains the maintenance costs of facilitating road access into the Greater Dublin Area, it is the case that with a large commuting population that many businesses outside Kildare are benefiting from the Council’s maintenance of the road network. In addition, other local authorities benefit from the rates collected from these businesses in their counties.

In this situation while Kildare must pay to maintain the road network facilitating businesses outside the County it must also provide the social community infrastructure from our growing and dependent young population. This presents significant pressures to our finances.

Kildare residents are not benefiting proportionately from a fair allocation of central funding based on comparative data. Kildare County Council is seeking to maintain basic services in the midst of major population growth while not being in receipt of a proportionate allocation of funding from central government based upon the indicators used to determine funding allocation to local authorities.

In the context of the above the success of our Economic Strategy in attracting FDI, indigenous new investment, together with sustaining indigenous companies, will be crucial in order to strengthen our business community to offset any future challenges. These activities also strengthen our income streams and sustain services. Responsible financial management and actions to leverage funding from central government departments, EU schemes and other agencies are also essential to ensure robust funding to provide enabling infrastructure for our growing County.

Governance and accountability.

Public confidence in our performance is essential. Making accountability work involves governance structures, transparency around expenditure and decision making, information management, compliant procurement and value for money oversight. This is crucial to reassure the public that we are using public funds in a responsible, targeted and effective way. This is more relevant since the introduction of LPT and in the context of the recession which gave rise to greater scrutiny of public spending generally. The Audit Committee is responsible for oversight of relevant governance policies and works closely with the Head of Internal Audit and Corporate Governance.

Risk management is also key, with each department recording and monitoring risks over a range of key areas. Maximising our impact in services and projects requires a whole of government collaborative approach. In this regard the Council are party to multiple Service Level Agreements with other agencies and local authorities. These SLAs define the roles of each party and the expected deliverables that drive the delivery of service.

To more closely monitor and manage performance under these SLAs the Council will develop a register of SLAs in 2020. The Council will continue to pursue opportunities for efficiencies from shared services and shared procurements such as those developed and co-ordinated through the sector’s Programme Management Office and the Office of Government Procurement (OGP).

Extensive information on our public reporting of our performance is available in the section of the Plan on Implementation and Reporting.
**Public consultation**

The Corporate Plan has been developed based on an open, informed and consultative approach. In accordance with Section 134 of the Local Government Act, 2001 the Council conducted a consultation process in the preparation of the Corporate Plan 2019-2024. Consultation was in the form of an online survey and an invitation for people to make submissions.

This was promoted online through Kildare County Council website, social media channels, newspaper advertisements, via channels in our libraries, the Local Enterprise Office, and the Public Participation Network (PPN). The online survey generated 215 responses from Kildare residents providing opinions and views.

Our Core Values

Our values guide us. They define the way we want to be and to act to enable us to make the lives of our citizens better.

In fulfilling our mission and pursuing the implementation of this plan, members and staff will be guided by the following core values:

- **ACCESSIBLE**
  - Approachable. Easy to Use
- **ACCOUNTABLE**
  - Takes Responsibility for Actions
- **ADAPTABLE**
  - Flexible and Open to Change
- **COURTEOUS**
  - Polite & Respectful
- **INCLUSIVE**
  - Fairness & Equal Opportunity
- **INNOVATIVE**
  - Forward Looking & Collaborative
- **SUSTAINABLE**
  - Serving today, protecting tomorrow
- **TRANSPARENT**
  - Informed Cooperative & Open

Strategic Objectives

1. **Leading a Climate resilient Kildare**
   “Building climate change resilience, action and sustainability into service and infrastructure, while protecting and promoting our natural and built environment for the well-being of present and future generations.”

2. **Enabling Business and sustaining growth**
   “To optimise the potential of Kildare and its businesses to innovate, invest, promote and sustain growth and employment, across our County and throughout our community.”

3. **Supporting delivery of housing and associated community development**
   “To work with all partners to strive to meet Kildare’s housing needs, working to reduce homelessness and providing support for developing communities.”

4. **Building communities through empowerment and inclusion**
   “To empower all citizens to participate in safe and inclusive communities and access services and supports that make a positive difference in their lives.”

5. **Delivering enabling infrastructure for a connected County**
   “Continue to plan, deliver and maintain key infrastructure in our County that sustains mobility and access and positions Kildare to achieve sustainable growth.”

6. **Supporting the Democratic Mandate, Performance and Communications**
   “To assist local democracy while improving service delivery, engagement and communications by maximising the effectiveness of our people, budgets, operations and ICT resources.”
Formal quarterly team meetings maintain focus on corporate objectives and drive performance. They also determine corrective action such as reprioritisation or reallocation of resources.

2. Enabling Business and sustaining growth

“To optimise the potential of Kildare and its businesses to innovate, invest, promote and sustain growth and employment, across our County and throughout our community.”

2.1 Grow employment by supporting existing SME’s growth and innovation plans, while maintaining a supportive environment that attracts and supports entrepreneurship.

2.2 Work with strategic partners to deliver infrastructure and promotional campaigns to attract, and expand foreign direct investment and major indigenous companies.

2.3 Support and promote growth opportunities for the equine industry in recognition of its central place as a unique feature of Kildare’s identity.

2.4 Collaborate with local providers, communities and strategic agencies to develop, package and promote our tourism offering and leverage our location as part of Ireland’s Ancient East, on Dublin’s Doorstep.

2.5 Consult with communities and collaborate with partners to enhance the public realm and design of our towns and villages and deliver projects and programmes that revitalise the local retail economy and rural hinterlands.

2.6 Support and promote growth opportunities for the Agri-food & Drinks sector in recognition of its strength as a key economic driver in County Kildare.

2.7 Develop and leverage opportunities for community, cultural and economic developments through Twinning and strategic engagement with our Diaspora.

2.8 Continue to work with partner agencies to support rural communities through skills development, enabling broadband delivery and supporting employment opportunities aligned to a rural lifestyle and setting.

2.9 Working in collaboration with all education stakeholders, to encourage and support skill development and talent retention required by employers in all sectors.

2.10 Support creativity, innovation and enterprise in Kildare through effective stimuli for local entrepreneurship to leverage the innovative capacity of the County and retain talented people.

2.11 Promote key aspects of the Green Economy including the adoption of appropriate alternative, sustainable and smart energy solutions including co-working hubs.
3. Supporting delivery of housing and associated community development

“To work with all partners to strive to meet Kildare’s housing needs, working to reduce homelessness and providing support for developing communities.”

3.1 To increase and maintain housing provision in Kildare in line with the national objectives of “Rebuilding Ireland: Action Plan for Housing and Homelessness” and to strive to achieve social housing targets and delivery of affordable housing.

3.2 Implement the Traveller Accommodation Programme 2019-2024 and support members of the Travelling community, who have been approved for social housing, to access and maintain housing supports including culturally appropriate housing.

3.3 Continue to work with regional and sectoral partners to reduce the numbers of people who need to be placed in emergency accommodation, by increasing availability of housing stock and working closely with approved housing bodies and advocacy groups to reduce the numbers who find themselves homeless or at risk of being homeless, and enable people to sustain their tenancies.

3.4 To maximise availability and utilisation of housing through repair/refurbishment of vacant units.

3.5 To provide suitable, accessible social housing and housing supports for older persons and people with a disability and to support home owners to carry out necessary adaptations/improvements to enable them to continue residing in their home.

3.6 Implement our anti-social behaviour strategy in order to prevent the occurrence of anti-social behaviour, by encouraging tenant participation in estate management and fostering the development of balanced communities.

3.7 Facilitate access to social housing, and other supports, where applicants have demonstrated eligibility with the necessary criteria.

3.8 Facilitate and promote excellence in architectural and urban design and maintain development controls to support sustainable and quality built environments.

3.9 Plan for the needs of our growing population by identifying strategic sites and supporting sufficient supplies of zoned serviced land to deliver sustainable communities.

3.10 Work with partner agencies to identify, plan and deliver social infrastructure such as schools, childcare, medical services, recreation and community facilities to meet the needs of our young, growing and diverse population.

4. Building communities through empowerment and inclusion

“To empower all citizens to participate in safe and inclusive communities and access services and supports that make a positive difference in their lives.”

4.1 Enhance social inclusion and community participation and development through training, awareness, capacity building, community grants and awards in collaboration with the PPN and LCDC.

4.2 Collaborate with relevant agencies to support the development of children and young people through accessible youth-specific facilities, childcare, recreation, sports, education and health services.

4.3 Continue to support the active inclusion of people through the delivery of Age Friendly Programmes in partnership with the National Shared Services Centre.

4.4 To facilitate the provision of recreation, sports and open space facilities in the County and educate and build the capacity of the entire community to participate in healthier lifestyles.

4.5 To evaluate, address and report upon the Council’s compliance with the public sector duty under the Irish Human Rights & Equality Commission guidance.

4.6 Continue to improve the well-being, learning, recreation and cultural needs of our community through participation in and development of our library, arts, heritage and culture services and programmes.

4.7 Collaborate with communities and strategic partners to identify educational deficits and facilitate and encourage opportunities for participation in education and learning at all life stages.

4.8 Oversee and collaborate with partner agencies in the LCDC to implement a joined up, cross sectoral approach to local and community development programming, particularly targeting the most excluded.

4.9 To protect our citizens from fire through efficient and effective emergency services that co-ordinate with other response services when emergencies occur.

4.10 To support Irish language and culture through implementing our Irish Language Scheme and related events and supports.

4.11 Promote and recognise cultural differences in planning and decision making by understanding needs, agreeing actions and including more diversity in decision making structures and policies.
5 Delivering enabling infrastructure for a connected County

“Continue to plan, deliver and maintain key infrastructure in our County that sustains mobility and access and positions Kildare to achieve sustainable growth.”

5.1 Optimise connectivity and ease of access within and through the County by planning, development, maintenance, upgrade and management of a safe road network.

5.2 Promote and support the use, development and maintenance of sustainable transport alternatives including walking, cycling and public transport in collaboration with key transport stakeholders and agencies.

5.3 Continue to provide infrastructure and facilities including car parking solutions, that support accessibility, commuters and the economic life of our towns and villages.

5.4 Support the development of a Digital Strategy that enhances our County’s economy by enabling rollout of broadband and telecommunications infrastructure by relevant providers.

5.5 Facilitate and support Irish Water in their delivery of significant capital investments in the County.

5.6 To ensure planning policy and development management support consolidated urban development and the reuse and regeneration of land and buildings in order to make the provision of key public services sustainable.

6. Supporting the Democratic Mandate, performance and communications

“To assist local democracy while improving service delivery, engagement and communications by maximising the effectiveness of our people, budgets, operations and ICT resources.”

6.1 Provide a best practice health and safety culture through staff training and proactive monitoring and reporting.

6.2 To ensure value for money in procurement activities through staff training, compliance with national procurement policies and participation in shared procurement initiatives.

6.3 Support organisational effectiveness, training and continuous professional development, staff well-being, innovation, flexibility and performance by implementing the sectoral People Strategy.

6.4 Utilise ICT to reduce costs, improve operational efficiency, expand online and Cloud enabled services to make it easier for customers to access services and information.

6.5 Support local democracy and the interests of the community by assisting the role of Elected Representatives and by growing voter registration.

6.6 Support the continued roll out of the local government reform agenda and initiatives in the area of shared services and other changes.

6.7 Continue to support strong audit, financial, risk, data and corporate governance and reporting systems to build public confidence, maximise efficiency and ensure compliance with our obligations.

6.8 To work alongside key partners to strategically use data to make informed, transparent and evidence-led decisions, to inform service and infrastructure needs, and advocate for our County from a strong evidence base.

6.9 Review and improve our communications channels to deliver timely and useful information that makes it easier for customers to access services and information.

6.10 Improve visibility and awareness of the Council by effectively promoting our role and our achievements in the delivery of projects and services.

6.11 Facilitate youth participation in policy development through Comhairle na nÓg.
Context
Implementation, monitoring and reporting of this plan is essential to ensure the Council delivers daily to bring to life the vision we hold for our citizens and our County. This Plan is developed based on current resources and realistic expectations by the executive and Elected Members regarding the future resource and operating environment. The experience of the recession has informed us that funding to our sector is subject to major change. While the budgetary process, which is a function of the Elected Members, is annual in scope, this Plan projects priorities for the next five years. The Council welcomes adoption of the Plan as a commitment by all stakeholders to long term objectives.

The Plan is a strategic framework to guide the Council in prioritising areas of expenditure as part of budgetary processes. However, changes in the external environment can bring about new challenges. We must have in place a responsive process to monitor performance and to, where necessary, identify the need to either fully review our plan or take quick corrective action, such as budget reallocation or redeployment of staff to secure objectives. In this regard it is essential information is available to enable informed decisions. The baseline data in our Plan will annually informs us of our delivery targets.

Annual Report (Monitoring and Corrective Action)
When annually approving revenue and capital budgets the Council are determining continued corporate objectives. To inform this process, an annual review of the Corporate Plan will be undertaken. The Council shall ensure assessment and reporting on the Corporate Plan is completed significantly in advance of the budgetary process. This shall ensure the Corporate Plan Progress Report (based upon updated Baseline Data), can highlight areas of slippage that require re-allocation of budgets, personnel or highlight a need to streamline service delivery, to keep the Plan on track. The assessment of annual progress in the delivery of the Corporate Plan will appear in the Annual Report.

Implementing the Plan - Annual Budget, Annual Service Delivery Plan and Performance Management and Development System (PMDS)
The budgetary process and PMDS serve to embed the plan in our tasks and activities and direct business planning, performance and strategic direction throughout the Council.

Following adoption of budgets in Q4 annually, early in Q1 of the next year the Council prepare Annual Service Delivery Plans and Schedules of Municipal District Works for the next 12 months. This initiates organisation-wide appraisal, capacity/risk assessment and goal setting, in the form of the PMDS process.

Commencing with the Management Team agreeing their plan for the next year, this filters down to each Department, Section and individual meeting with their teams to review performance, risks, and dependencies and to set targets for the next 12 months.

High level goals in each team or personal plan are indexed with reference to a supporting strategy in the Corporate Plan to ensure clear linkage between individual performance and overall strategy. Formal quarterly team meetings maintain focus on corporate objectives and drive performance. They also determine corrective action such as re-prioritisation or reallocation of resources.

Continuous monitoring and reporting
In addition to the process outlined above, a vast range of reports are publicly available to demonstrate delivery. This is in effect a supplementary public performance matrix. The requirement to publicly report in this manner is:

- A governance measure enhancing accountability and commitment of the entire organisation to the Plan
- A measure ensuring availability of data to Management to measure performance and drive delivery
- A measure supporting greater transparency around activities

The Councils staff are also accountable to the public through reporting to almost 90 statutory meetings of SPCs, MDs, Full Council and other statutory meetings throughout each year. Finally, the Council are also subject to Internal Audit, Audit Committee, NOAC and Local Government Audit scrutiny which further serves to annually appraise efficiency, value for money, controls and governance in the use of public funds in delivering objectives.

Formal Review:
It is recognised that the Corporate Plan should be a dynamic document. Section 134(8) of the Local Government Act 2001 allows for formal review. In this regard certain factors may give rise to a formal review, where the relevance or attainability of the Plan is in question and requires amendment. These may include for example;

- Significant major policies or reforms in the sector following a general election,
- Evolving/expanding areas of focus that bring major additional resource requirements;
- The expiration of highly significant strategic documents related to the Council’s operating environment, such as the LECP 2016-2021, a new County Development Plan;
- Termination of significant EU or national funding streams;
- Significant general deterioration in the economy affecting local authority funding.

The Council has displayed capacity to reform structures and operations in recent years. While this plan must be dynamic, so must our responses. Reallocation, where needed is not just financial. Embedding our People Strategy, particularly training, knowledge management, succession planning and mobility elements, in addition to development of strategic competencies, are core to supporting delivery in 2019-2024. The Council’s Workforce Plan underpins reorganisation over recent years and will be monitored and reviewed to meet demands.
Appendix 1: List of Strategies and Plans Influencing Local Government in Kildare:

National/EU

- The Regional Action plan for jobs
- Brighter Outcomes Better Futures: The national policy framework for children and young people 2014-2020
- Catchment Flood Risk Assessment & Management programme
- Climate Action and Low Carbon Development Act 2015 (National Mitigation Plan and National Adaptation Framework)
- Climate Action Plan 2019
- Climate Charter
- Climate Action Plan 2019 to Tackle Climate Disruption (2019)
- Construction 2020
- DCCAE: National Cyber Security Strategy
- DCCAE: National Digital Strategy
- DEBI Innovation 2020
- Department of Children and Youth Affairs “Better Outcomes Brighter Future 2014-2020”
- Department of the Environment, Community and Local Government Strategy Statement
- Digital Single Market
- eGovernment Strategy
- Enterprise 2025
- EU ‘Floods’ Directive
- EU Strategy on Adaptation to Climate Change
- European Flood Awareness System (EFAS)
- Fáilte Ireland Tourism Investment Strategy
- Flood Risk Management Plans and Maps produced under National CFRAM
- Framework for Building Control Authorities – Ensuring effective Building Control
- Guidelines on the Planning System and Flood Risk Management
- Freedom of Information Act 2014
- Guidelines on the Planning System and Flood Risk Management
- Horizon 2020 - IDA Ireland Strategy
- Investing in Our Culture, Language and Heritage 2018-2027
- Irish Water Capital Investment Programme 2017-2021
- Literacy and Numeracy for Learning and Life: The National Strategy to Improve Literacy and Numeracy Among Children and Young People 2011-2020
- Market Surveillance of construction products (S.I. No. 225 of 2013) under Construction
- Marine Planning Policy Statement (to be adopted Q3 of 2019)
- Met Eireann strategic plan 2017-2027
- National Climate Change Adaptation Framework
- National Broadband Plan
- National Development Plan
- National Flood Forecasting and Warning Service (date from monitoring stations -
- National Guidelines for the Assessment and Allocation Process for Social Housing Provision for People with a Disability.
- National Heritage Plan - Heritage Ireland 2030
- National Housing Strategy for People with a Disability (NHSPWD)
- National Lead Strategy
- National Marine Planning Framework (to be adopted by end 2020)
- National People Strategy (HR)
- National Planning Framework 2040
- National Policy Framework for Children 2014-2020
- National Social Enterprise Policy for Ireland 2019-2022
- National Traveller and Roma Inclusion Strategy 2017-2021
- National Vacant Housing Reuse Strategy 2018-2021
- Open Data (Ireland’s Open Data Portal)
- Our Public Libraries 2022: Inspiring, Connecting and Empowering Communities
- Our Public Service 2020
- Project Ireland 2040
- Protocols on Transfer and Sharing of Property Assets
- Public Sector Energy Efficiency Strategy
- Public Service Data strategy 2019-2023
- Public Service ICT Strategy
- Rebuilding Ireland – Action Plan for Housing and Homelessness.
- Renewable Electricity Policy and Development Framework (REPDF)
- Rural Development Policy 2020
- Smarter Travel - A New Transport Model for Ireland 2009-2020
- Strategy for the Future Development of National and Regional Greenways
- Sustainable, Inclusive and Empowered Communities: A Five-Year Strategy to Support the Community and Voluntary Sectors in Ireland (to be published 2019)
- The National Language Strategy 2010-2030

Appendix 2: National Performance Indicators
(Reports available at www.noac.ie)

CORPORATE
C1: Total Number of WTEs
C2: Working Days lost to Sickness
C3: LA website and social media usage
C4: Overall cost of ICT provision per WTE
C5: Overall cost of ICT as a proportion of Revenue expenditure

WASTE/ENVIRONMENT
E1: No./% of Households availing of a 3 bin service
E2: % of environmental pollution complaints closed
E3: % of LA area within the 5 levels of litter pollution
E4: % of schools that have been awarded green flag status

FINANCE
M1: 5 Year summary of Revenue Account balance
M2: 5 Year summary of % collection levels for major revenue sources

PLANNING
P1: New Buildings inspected
P2: No./% of Planning decisions confirmed by An Bord Pleanála
P3: % of Planning Enforcement cases closed as resolved
P4: Cost per Capita of the Planning Service
P5: Applications for Fire Safety Certificates Roads

WATER
W1: % Drinking water in private schemes in compliance with statutory requirements

LIBRARY/RECREATION SERVICES
L1: Library Visits and Issues
L2: Cost per capita of operating a Library Service

HOUSING
H1: Social Housing Stock
H2: Housing Vacancies
H3: Average Re-letting Time and Direct Costs
H4: Housing Maintenance Direct Cost
H5: Private Rented Sector Inspections
H6: Long-term Homeless Adults

ECONOMIC DEVELOPMENT
J1: No. of jobs created
J2: Trading Online Vouchers
J3: No. of mentoring recipients
J4: Tourism

LIBRARY/RECREATION SERVICES
L1: Library Visits and Issues
L2: Cost per capita of operating a Library Service

FINANCE
M1: 5 Year summary of Revenue Account balance
M2: 5 Year summary of % collection levels for major revenue sources

PLANNING
P1: New Buildings inspected
P2: No./% of Planning decisions confirmed by An Bord Pleanála
P3: % of Planning Enforcement cases closed as resolved
P4: Cost per Capita of the Planning Service
P5: Applications for Fire Safety Certificates Roads

WATER
W1: % Drinking water in private schemes in compliance with statutory requirements

YOUTH/COMMUNITY
Y1: Participation in Comhairle na nÓg scheme
Y2: Groups associated with the Public Participation Network (PPN)
